

Hazardous Material Disposal

Jordan School District Risk Management Coordinator oversees the hazardous waste management practices of the hazardous waste generators in Jordan School District. This includes corrective action, characterization, storage, treatment, and disposal.

If a school needs to remove or dispose of Hazardous Waste, You will need to enter a work order on Sprocket.

- Choose **Custodial** for your request type.
- Choose **Hazardous Waste** as your request code.
- Give as much detail as possible and someone will be out to evaluate. Some materials can be removed immediately; other chemicals may require additional resources and permits to move.
