

Field/Activity Trip Charges for 2016-17

The set-up fee charged covers the overall average of the cost to travel from the bus yard to the school and back to the bus yard. This covers the driver's time and the fuel costs as well as wear and tear on the bus. Also included is the time required to fuel, clean, and do a daily safety inspection on the bus. All schools pay the same flat fee. For the 2016-17 school year, **the set-up fee will be \$40.00 for each bus.**

Mileage charged to the school will start at your school and will end at your school at the end of the trip. **All miles traveled as part of the trip will be charged at \$1.14/mile.**

The charge for the **driver's time** will be calculated at the rate of \$20.80 per hour.

Trips that encroach on moratorium times and dates will be billed a \$60.00 set up fee and driver's time will be calculated at \$31.20 per hour. The \$1.14/mile will not change.

These changes to the billing for field/activity trips will take effect on August 1, 2015.
