Custodial/Energy Services

[Energy Management Dashboard](#)

You can compare your school to others of your size, or see how your school does compared to all other schools throughout the district.

How to use the Dashboard:

You can compare different Energy Categories by choosing from the 7 different tabs.

You can also compare different facility types, time periods, and/or chart types by using these selections.

Scope

All Facilities

Facility Group

Single Facility

Time Period

Span: 1 Year

Ending: Aug 2022

Chart Type

Line Chart

Bar Chart

Area Chart

Pie Chart

Here are some examples of classroom assignment ideas;

- Have students figure out why different buildings have different energy uses.
 - Ex. Natural Gas buses, Green Houses, Swimming pools, Age of the Building
- What are things the schools can do to lower energy use?
- Why does energy use change for different seasons?

If you have issues connecting to the Dashboard, or have questions about the information you are seeing, please contact Lauri Spitzenger in the Custodial/Energy Services Department. You can contact her through email at lauri.spitzenberger@jordandistrict.org or call her desk at (801) 567-8745 or her cell at (385) 272-0224.
